Information Pamphlet

Information & Guidelines

The program provides an enriched classroom setting for highly motivated students in English, mathematics and science. The program begins in Grade 9 and allows students to deepen their understanding beyond the curriculum expectations with an accelerated and enriched program. These courses can lead to Advanced Placement classes in Grade 12 that prepare students to write AP exams. The exams can lead to a university credit. All strong academic students are encouraged to apply.

The Flexibility Of The AP Program.

The AP Program allows students to select the number of AP classes that suit their learning needs. While some students might choose as few as one AP class, others may select the full complement of courses offered in order to work towards the AP exams that are recognized worldwide.

ADMISSION CRITERIA

Clarington Central welcomes interested students into the Enriched Program in Grade 9 who have strong academic achievement and are committed to active learning. Submit an interest response & a recommendation from a teacher.

- 95% of students graduate from university in regular time
- There are approximately 200 high schools involved in AP in Ontario

TESTIMONIALS

- AP courses are not just for the elite, they are for the prepared. Motivation is the key, not just a sharp mind.
- AP was definitely beneficial to me. I enjoyed the classes and the extra work gave me both a challenge as well as knowledge that will serve me well in university.
- I would recommend taking AP courses to other students. It is a great opportunity and learning experience.
- Yes I found that you benefit from being surrounded by students who are all striving to go beyond the expectations.
